

Supporting your project with its financial planning and costings.

## Motivation

The motivation was wanting to enable small projects/groups to become more resilient and sustainable through a greater understanding of financial planning. By creating a network which could build mutual support, sharing ideas and learning, the hope is that over time it can be self-supporting.

**BIGGEST CHALLENGE** - Finding the means to “make it happen” was the biggest challenge so far. But talking to RVA was the key to tapping in to the need in the local community and securing the MIH funding.

## Achievements

Our pilot has only just started, so the biggest success so far is getting going and running our first introductory session.

## Beneficiaries

- ◆ It is early days so numbers are small, but feedback on the first introductory session was very positive.
- ◆ Below is a photo of the first pilot session.

## Message to the public

**Rother VCSE Network 4FP is there for anyone setting up or running a community organisation/group or activity in Rother, if they feel the need for support with financial planning/costing projects/keeping solvent.**

Rother VCSE Network 4FP has a private Facebook group. After attending an Introductory Session, participants will be invited to join the group.
