

# Hospitable Environment

Our open access model allows people of any age and demographic to join lots of our events.

## Our Motivation

Hospitable Environment is a community arts organisation based in Newhaven, East Sussex. We use creativity and food to connect with our communities. Together we explore what it takes to create hospitable environments.

**BIGGEST CHALLENGE -** Building a mobile bread oven and serving over 2000 free pitta breads at Tide Mills beach. Lots of help from willing volunteers and great feedback from the public.

## Achievements

We run bi-monthly free 'Soup and Social' events at the Hillcrest Centre. Everyone is welcome and we all sit together to share a meal.

## Message to the public

Hospitable Environment has just become a CIC. We have just got our own **MAKERS SPACE** which we are converting into a community arts and pottery studio. Follow us on instagram to find out more.

## Our Beneficiaries

'I went to my first soup and social last week with a small group of people who have recently arrived in the UK. I was blown away by the sense of inclusivity and warmth at the event.'

'Anyone can attend, everyone gets involved and you don't even need to like soup'
