

Sharing Skills CIC

We fix 25 - 30 items at each monthly Repair Cafe. We have at least 60 people come along each month for the Repair Cafe or for the free community lunch we provide too.

Our Motivation

Concern about the amount of resources we are using and the waste we are producing. We want to help people learn the skills that make us more resourceful in our changing world.

BIGGEST CHALLENGE — Knowing how to start and recruiting volunteers for the Repair Cafe. Luckily the Lewes Repair Cafe was already running. They kindly gave us advice and allowed us to join them for one of their sessions. There is also a local network of Repair Cafes who share advice.

Achievements - To have been able to recruit many volunteers with different skills who are happy to give their time to help others. The appreciation and happiness when somebody has something fixed or learns a new skill.

Our Beneficiaries

"Didn't know this existed until today. Amazing very friendly volunteers managed to repair a Halloween doll which is sentimental to my wife.

Seaford Repair shop you are awesome. Percy thanks you for his new beak. Liz you are a star, one happy Falklands Veterans Penguin."

Message to the public

At Sharing Skills, we bring people together to share practical skills with those who would love to learn. Get in touch if you have a skill to share or looking for a skill to learn.
